Water treatment solutions

For the Nexus[®] modular hybrid cooler we offer various water treatment solutions that will

- Save money
- Increase safety and hygiene
- Simplify operation
- Enhance sustainability

Standard

- **DiamondClear[®] design with built in iPilot[®]** : Automatic bleed control system

Traditional water treatment package

- **BCP NX 2:** Automatic dosing and bleed control package

UV light system package

- **BCP NX 3 UV:** Automatic dosing with UV-lamp providing a $60\text{mJ}/\text{cm}^2$ dosage and bleed control package

Pre-treatment option

- **ZeRO 4 Nexus®**: Innovative reverse osmosis (RO) technology designed specifically for the NEXUS® modular hybrid cooler

You want to use one of these solutions? Download more information on the [benefits of each option](#) or [contact](#) your local BAC representative.
