Standard coils

Spare parts guide

Standard coils

- In comprehensive <u>lab</u> thermal performance tests, the coil showed proved thermal cooler performance and offers you unrivalled system efficiency.
- Developed and manufactured in house.
- The coil is constructed of continuous length of **prime surface steel**, hot-dip galvanized after fabrication.
- **Cooling coils** are designed for maximum 10 bar operating pressure according to PED.
- **Condensing coils** are designed for maximum 23 bar operating pressure according to PED. Pneumatically tested at 34 bar.
